EXPERIENCE

DDM Web Designs, Remote — Front End Javascript Developer/ Web Designer

2019 - PRESENT

Front end web developer with experience in HTML, CSS, Javascript, Node, React, APIs, Solidity. Also extensive experience with CMS platforms such as Shopify, Wix, and Wordpress.

Jesco White Nation, Remote — Webmaster

JUNE 2021 - PRESENT

Redesign of Shopify website for an american country musician. After working on the site initially and finishing the job, the client would occasionally reach back out for continued work. This eventually lead to working as their webmaster for a monthly fee. I currently run this site and update it according to the client's requests.

Tech Medics, Remote —Freelance Web Designer

MAR 2022 - PRESENT

Freelance work with Tech Medics building and redesigning websites using CMS platforms for small businesses. Tech Medics is a computer specialist service that deals in device repair, resell, home installations, and more. The owner of this business wanted to expand into offering web design services for his clients.

WVPie, Remote —Freelance Shopify Designer

MAR 2022 - MAR 2022

Created Shopify store used to help migrate online presence from Wordpress for better ecommerce functionality. I also completed a redesign of their website before transferring their domain.

Mojo Education, Remote —Freelance Web Designer

FEB 2022 - MAR 2022

Redesign Wix website for a small business dedicated to helping teachers and parents in prekindergarten education. The business owners are former teachers that want to help other teachers and parents. The website functions as a resource for books, educational toys, articles, and more.

Builder.io, Remote —Freelance Javascript Dev

JUNE 2021 - NOV 2021

Help create Javascript plugins for Builder.io web builder function.

Builder.io is a web building service used to help build websites quickly.

They have a web builder interface to help people without web design

experience. The web builder interface uses components that can

incorporate 3rd party apps such as Smile.io, Conversion Bear, Yopto, and

many more.
